

INFORMATION SHEET - MORTGAGE LOAN RECAST

What is a Mortgage Loan Recast?

A mortgage loan recast is when you pay a substantial amount of principal on your loan to reduce the balance and monthly payment.

How does a Mortgage Loan Recast Work?

- You make a substantial (minimum of \$10,000) lump sum payment to reduce the loan balance
- We then recalculate the monthly payment based on the lower principal balance, using the same interest rate and time remaining under the original mortgage term
- As a result, you receive a lower monthly payment

Is There a Fee?

- The Recast Fee is \$300.00.

How do I Qualify?

- Your loan must be a conventional mortgage owned by Fannie Mae or Freddie Mac
- Your loan must be current on your monthly payment with no amounts outstanding
- Your request can be processed after you have made your first scheduled mortgage payment
- Your request must be at least 90 days prior to any scheduled Adjustable Rate payment changes
- You must have a lump sum principal payment of \$10,000 or more available within 30 days (do not start this process if your payment will not be available within 30 days)

How do I Get Started?

- Complete, sign, and return the Recast Request Form (please note, all original signors of the original Note must sign this application)
- Submit the Recast Request Form, along with the Recast Fee and lump sum principal payment to the following address:

Flat Branch Home Loans
Attn: Accounting
3400 Buttonwood Dr. Ste A
Columbia, MO 65201

What Happens Next?

- Once Recast Request Form and funds are received, you will receive a Mortgage Loan Recast Agreement within 15 days (The Agreement will include the new monthly mortgage payment amount)
- You will then be required to execute, notarize, and return the Mortgage Loan Recast Agreement
- Begin paying your new monthly mortgage payment on the effective date specified in the Mortgage Loan Recast Agreement (no more than 45 days from the date of the agreement)
